

# Introducing: December People Classic Rock Christmas

December People's Classic Rock Christmas is a full-tilt surprise packed concert where the entire audience, young and old, knows every lyric, jumps on the sleigh ride and sings along with every song as performed live, by members of actual touring classic rock bands, such as Boston, Sammy Hagar Band, Greg Kihn Band, and The Tubes. They are December People.

Picture a festively fantastic twist to the concept in Holiday Entertainment! Now, imagine what Journey would sound like doing the Holiday Classic "ANGEL'S WE'VE HEARD ON HIGH", or the iconic ZZ TOP doing "SANTA CLAUS IS COMING TO TOWN", with Texas trio's special blend of guitar riffs and growling vocal style? That's December People.

December People injects those timed stamped, precious musical memories from the songs you grew up with into the holiday classics we all know and love. It's the Christmas season rendered as the classic rock masters, such as Van Halen, The Who, Tom Petty, Huey Lewis, Santana, Journey, The Eagles and other classic rockers might perform them.

With 5 CDs under their collective belt, December People have made a great many new fans in venues far and wide, while logging thousands of miles feverishly crisscrossing the elaborately decorated country during their holiday concert season. They consistently bring crowds to their feet through inspired musical performances and their warm rapport with the audience. Don't miss the December People when they visit your city.
